

Blockchain Marketplace for Travelers

ABOUT ROOMDAO

ROOMDAO is a blockchain-based marketplace for travelers which is designed to solve all accommodation and transportation tasks.

It offers hospitality premise lease and rent, house exchange, car rent and numerous travel services and as well as cryptocurrency earning opportunities and financial management solutions.

It is also an innovative ecosystem of peer-to-peer direct communication and contracting for all possible tourist and hospitality services with secure ratings and reviews and all-in-one convenience.

Rate:

1 ETHEREUM = 3 000 ROOMCOIN

ABBREVIATION – RDC

Token:

ERC 2.0

Description:

UTILITY TOKEN

TOKEN SALE - 39 600000 ROOMCOIN

INDUSTRY ISSUES

- 
- No single marketplace
 - Inefficient distribution
 - Risk of confidentiality breach
 - Oligopolistic market nature
 - Environmental issues
 - Low security level
 - Too high service fees
 - Corrupted review system
 - No cryptocurrency use
- 

OUR SOLUTION

As a unique and safe travel marketplace, ROOMDAO does not only offer the latest standards of user-data security based on blockchain technology but also provides more control to its users – DAO-ROOMERS whose activities may shape the travel market now. The platform's unique features are:

Free registration

Global coverage

Smart contracts

Accommodation

House sharing

Car rent

Travel services

Fin. Management

Rewards

Ratings & reviews

Travel community

Cultural exchange

Wish lists

Ads and promotion

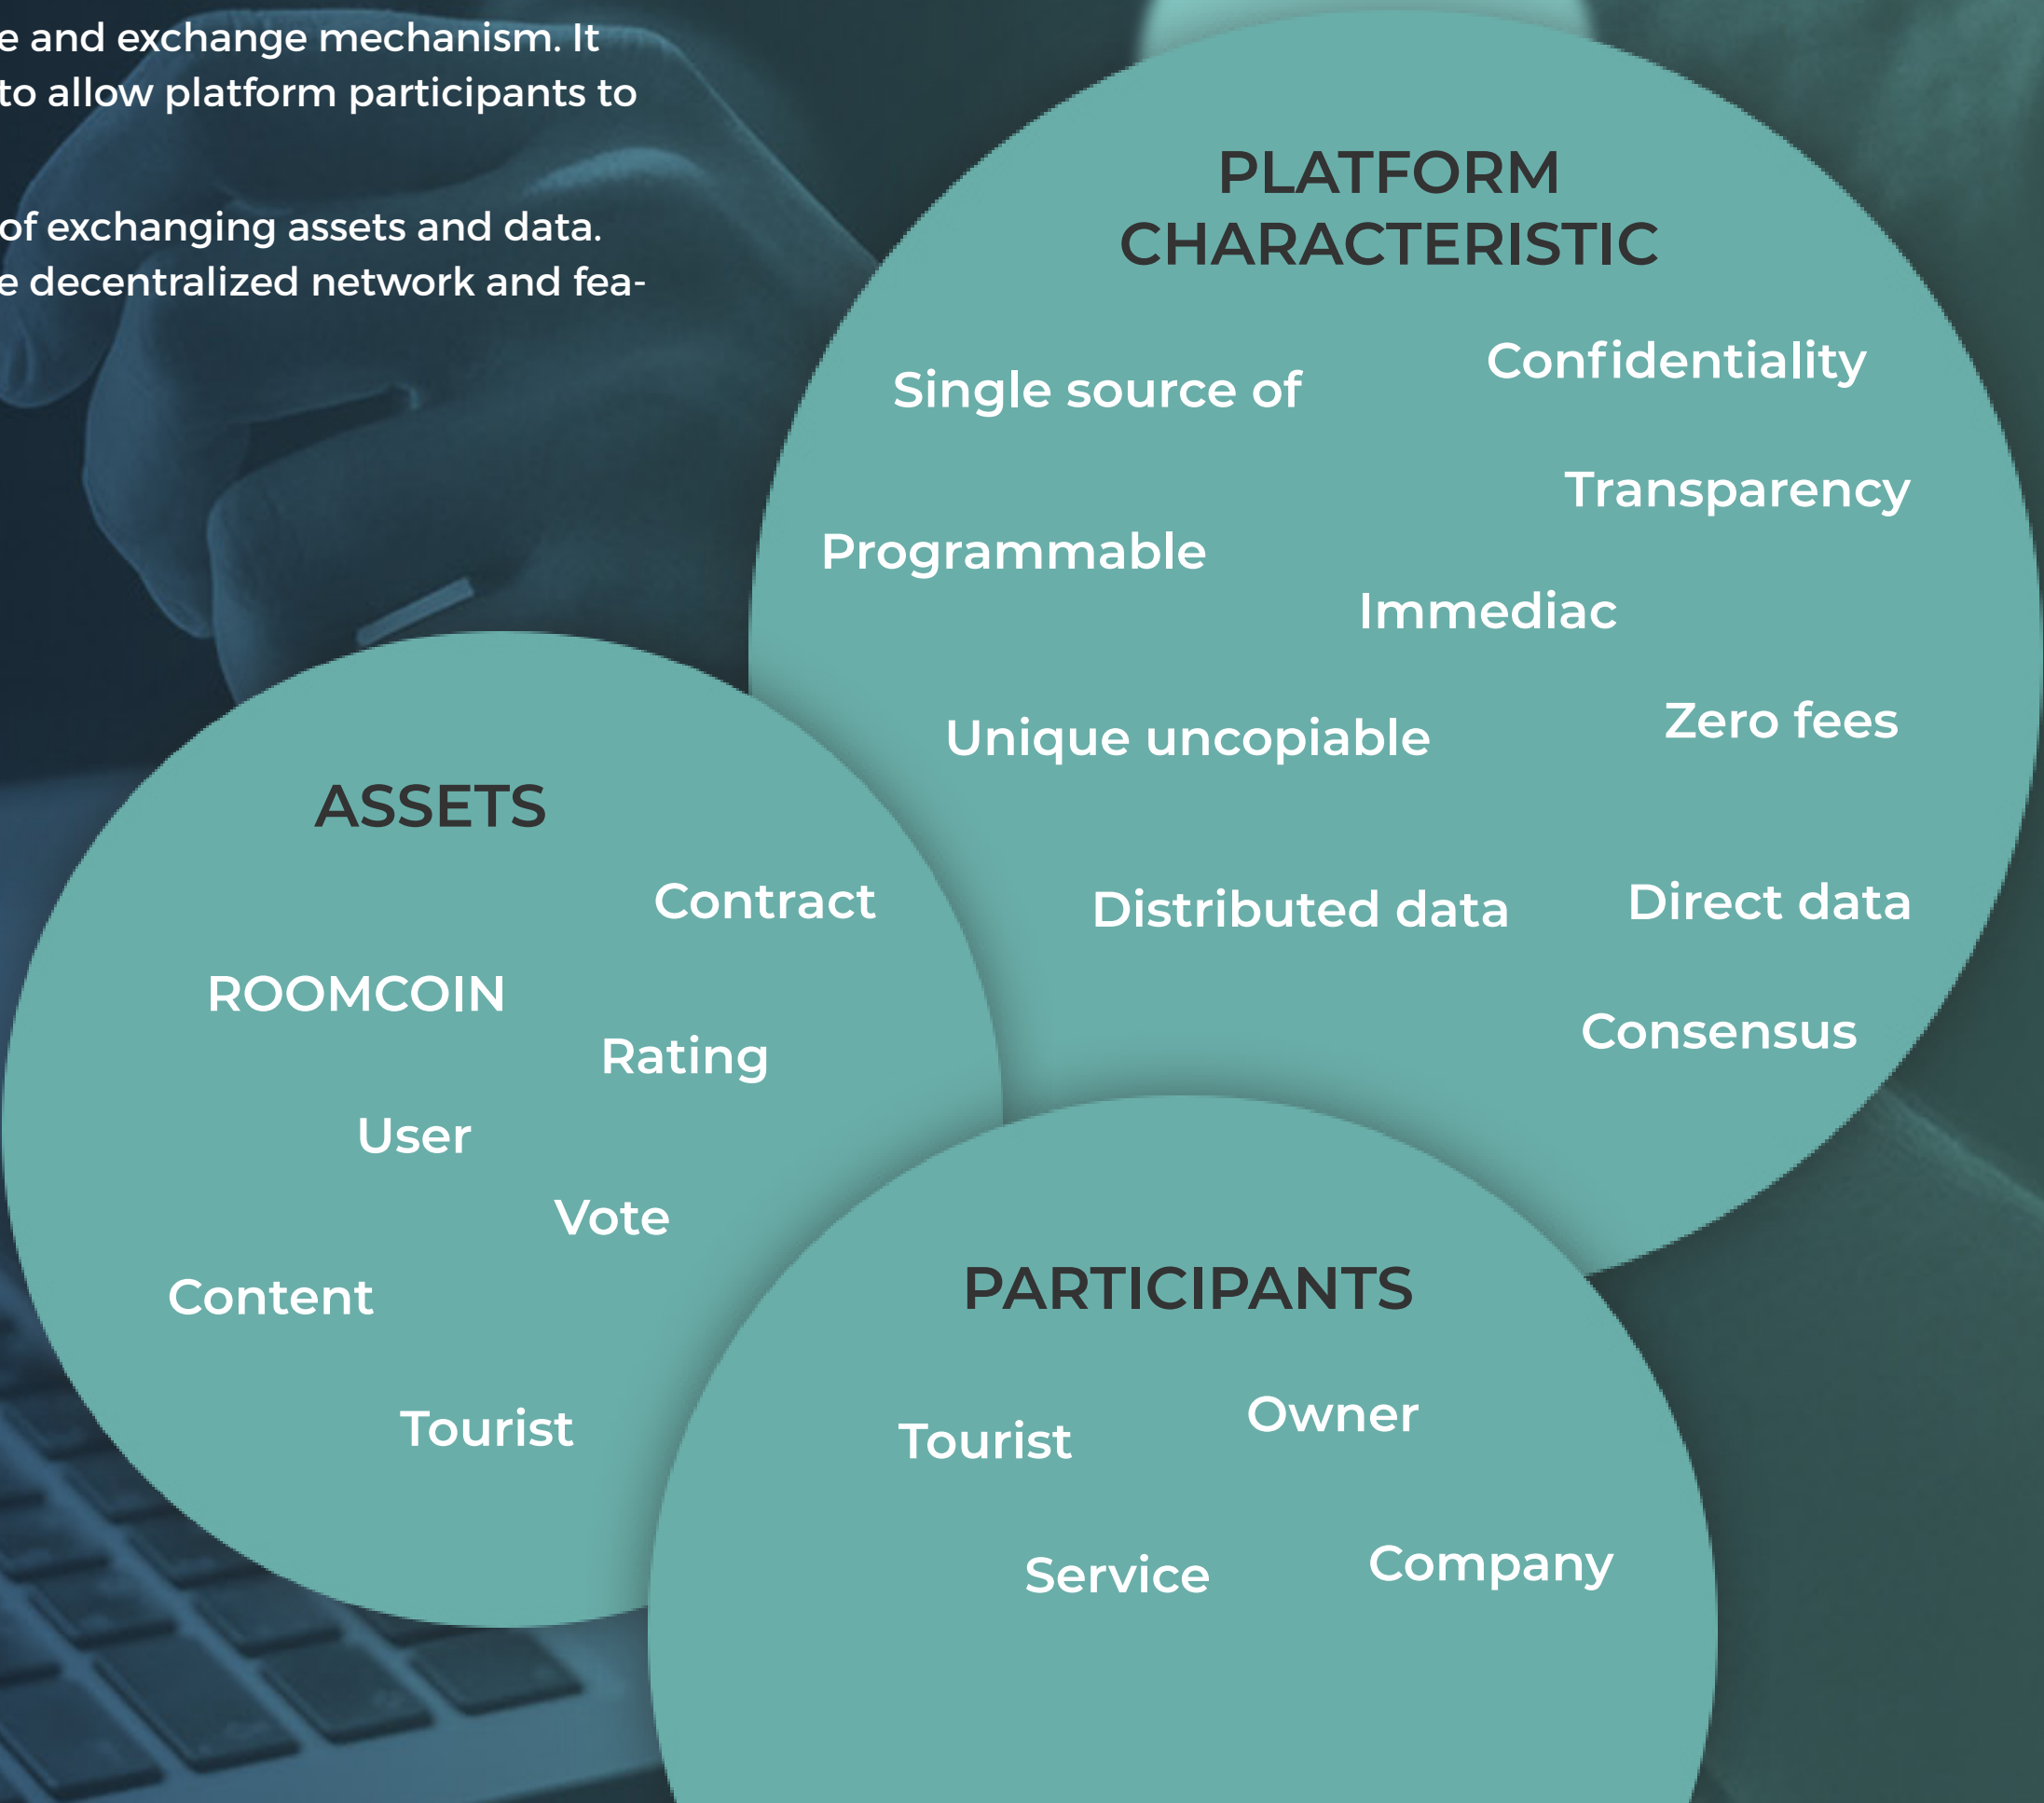

Own cryptocurrency

ROOMDAO blockchain is optimized for the marketplace structure and exchange mechanism. It has been designed with powerful smart contract based features to allow platform participants to make their deals in the most secure and reliable way.

The design also provides the highest possible quality experience of exchanging assets and data. The ROOMDAO platform runs on the ROOMDAO P2P open-source decentralized network and features our own Proof-of-Networking consensus protocol.
